

# #90

Thanks to our  
customers, we've  
demolished the  
competition.

And raised our  
world ranking.

All of us at **Two Rivers Demolition, Inc.** would like to express our gratitude to the many customers and business associates who have helped make us the ninetieth largest demolition company in the world. In just 8 years, we've managed to build a reputation as a technologically advanced, high quality, environmentally friendly demolition company. Not bad for a company who's always tearing things down.

According to *Demolition & Recycling International* magazine's D&Ri-100 listing of the top 100 demolition contractors in the world. The list was revealed in its March/April 2004 issue.
